

Installation

- 1) Upload wc_citcon.tar.gz to Wordpress plugins directory. On a Ubuntu installed at web root directory, the plugins directory is at /var/www/html/wp-content/plugins
- 2) Run "tar -zxvf wc_citcon.tar.gz". This will extract files into /var/www/html/wp-content/plugins/citcon directory. There will 3 files:
 - /var/www/html/wp-content/plugins/citcon/citconpay_methods.png
 - /var/www/html/wp-content/plugins/citcon/citconpay.php
 - /var/www/html/wp-content/plugins/citcon/redirect.php
3. Open wp-admin in a browser, go to Plugins (/wp-admin/plugins.php)
4. Activate Citcon Gateway for WooCommerce plugin

5. Go to WooCommerce->Settings, click on Checkout tab, scroll to bottom, click on CitconPay to configure

Gateway display order	Gateway	Gateway ID	Enabled
	Direct bank transfer	bacs	-
	Check payments	cheque	-
	Cash on delivery	cod	-
	PayPal	paypal	-
	CitconPay	citconpay	

6. Enter API Token (aka CHOP Token), and select Test or Live environment accordingly. Please note that token and environment must match. Save changes.

Checkout

Add items to cart, and check out cart.

Select CitconPay as payment method.

Choose Alipay or WeChat Pay

Order received

Thank you. Your order has been received.

Asynchronously, after successful payment, order status is moved automatically from Pending Payment to Processing in wp-admin.

Note on Refunds

Please note that refunds must be issued in both wp-admin as well as on Citcon Merchant Dashboard. Refunds given in wp-admin alone are not issued to consumer's Alipay or WeChat Pay's wallets.
